MEETING NOTES

Team Meeting 4.14.2025

WHEN: Monday, April 14th @ 5:00 PM

LOCATION: Virtual, Zoom

PURPOSE: Starting part 5 of the project

ATTENDANCE: Devarth Patel, Sanketh Reddy, Harry Ahrenholtz, Kemar Wilson, Aiden Ingram, Spencer Rodenberg

OBJECTIVE: Assign tasks for part 5

Tentatively choosing MariaDB as our platform of choice.

The introduction is a re-emphasis of last introductions.

Want only one person generating data for consistency.

Assigned Kemar to creating the data environment.

Aiden and Sanketh to work on population of the DB, will also print the table contents.

Need to figure out how to get data for population.

Harry, Dev, and Spencer will work back end.

Each of us will be testing to ensure a different thing, to be assigned later.

TASKS: Kemar to work on creating DB/environment, Sanketh and Aiden to populate DB, Harry, Spencer, and Dev to work on backend/debugging
